TABLE OF CONTENTS

SECTION 01

Project Overview

Saffron Table is a premium modern dining restaurant. This design spec is your single source of truth for every visual decision while building the landing page. Follow it precisely — every color, font size, and spacing value is intentional.

PROJECT	Saffron Table Restaurant Landing Page
TYPE	Portfolio Showcase — Frontend Development
STACK	Next.js · TypeScript · Tailwind CSS · Ant Design v5
TIMELINE	6 Working Days
DEPLOYMENT	Vercel
GRID SYSTEM	8px base unit — all spacing is a multiple of 8px
BREAKPOINTS	Mobile 375px · Tablet 768px · Desktop 1280px · Wide 1440px
COLOR MODE	Light mode primary — dark hero section

SECTION 02

Color Palette

These are the only colors used throughout the project. Do not introduce new colors without approval. All colors have specific roles — use them as documented below.
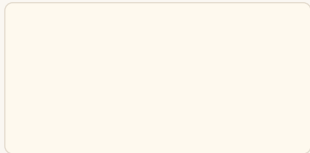

PRIMARY COLORS

Gold
#B07D2F
CTAs, accents, highlights

Gold Light
#D4A855
Hover states, gradients

Gold Dark
#8B6120
Active states, text on gold

Gold Pale
#FEF9EE
Section backgrounds, card tints

NEUTRAL COLORS
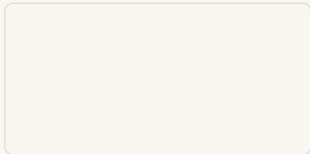

Ink
#1C1917
Headings, primary text
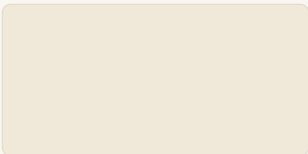

Ink Mid
#44403C
Body text, descriptions
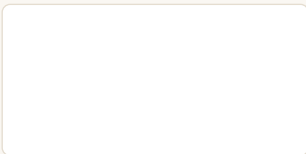

Ink Soft
#78716C
Captions, labels, metadata

Cream
#FAF7F2
Page background

Cream Dark
#F0E8D8
Card backgrounds, alternating rows

White
#FFFFFF
Cards, modals, inputs

Border
#E5DDD0
Dividers, card borders

Surface
#F5F0E8
Sidebar, tag backgrounds

SEMANTIC / STATUS COLORS

Success
#065F46
Success states, confirmations

Danger
#BE123C
Errors, required field errors

Info
#1D4ED8
Info states, links

Warning
#C2410C
Warnings, pending states

SECTION 03

Typography

Two font families are used throughout the site. Cormorant Garamond for display/headings and DM Sans for UI text. Never use system fonts or other typefaces.

| ROLE	FONT FAMILY	WEIGHT	SIZE	LINE HEIGHT	USE CASE
Display H1	Cormorant Garamond	Light 300	64–84px	0.95	Hero headline
Display H2	Cormorant Garamond	Regular 400	40–56px	1.0	Section titles
Display H3	Cormorant Garamond	Medium 500	24–32px	1.2	Card headings
Body Large	DM Sans	Regular 400	16–18px	1.7	Lead paragraphs
Body Default	DM Sans	Regular 400	14–15px	1.6	General text
Body Small	DM Sans	Regular 400	12–13px	1.5	Captions, meta
Label / UI	DM Sans	Medium 500	11–12px	1.0	Tags, badges, nav
Monospace	DM Mono	Regular 400	10–12px	1.4	Code, day labels, prices
CTA Button	DM Sans	SemiBold 600	14px	1.0	All button text
Nav Links	DM Sans	Medium 500	14px	1.0	Navigation items

GOOGLE FONTS IMPORT

```
@import url('https://fonts.googleapis.com/css2?family=Cormorant+Garamond:ital,wght@0,300;0,400;0,500;0,600;1,300;1,400&family=DM+Sans:wght@300;400;500;600&family=DM+Mono:wght@400;500&display=swap');
```

Spacing System (8px Grid)

All spacing — padding, margin, gap, border-radius — must be a multiple of 8px. This creates visual harmony and consistency across all screen sizes.

TOKEN	VALUE	PX	TAILWIND CLASS	COMMON USE
space-1	0.25rem	4px	p-1 / m-1	Tag padding, tiny gaps
space-2	0.5rem	8px	p-2 / m-2	Base unit — inline spacing
space-3	0.75rem	12px	p-3 / m-3	Small component padding
space-4	1rem	16px	p-4 / m-4	Card inner padding (top/sides)
space-6	1.5rem	24px	p-6 / m-6	Section inner padding
space-8	2rem	32px	p-8 / m-8	Between sub-sections
space-12	3rem	48px	p-12 / m-12	Component vertical spacing
space-16	4rem	64px	p-16 / m-16	Between major sections
space-20	5rem	80px	p-20 / m-20	Section top/bottom padding
space-24	6rem	96px	p-24 / m-24	Hero vertical padding

BORDER RADIUS

ELEMENT	RADIUS	TAILWIND
Buttons	8px	rounded-lg
Cards	16px	rounded-2xl
Tags / Badges	4px	rounded
Pills / Chips	100px	rounded-full
Input Fields	8px	rounded-lg
Modal / Drawer	16px	rounded-2xl

Component Specs — Navbar & Hero

NAVBAR

PROPERTY	VALUE	NOTES
Height	72px	Fixed height across all breakpoints
Background (scroll)	White + 20px blur backdrop	rgba(255,255,255,0.95) + backdrop-filter: blur(20px)
Background (top)	Transparent	Blends with hero section
Border bottom	1px solid #E5DDD0	Only visible after scroll
Position	sticky top-0 z-50	Always visible while scrolling
Logo font	Cormorant Garamond 600 18px	Color: #B07D2F
Nav links	DM Sans 500 14px	Color: #44403C Hover: #B07D2F
Active link	DM Sans 500 14px + underline	Color: #B07D2F 2px gold underline
CTA Button	"Book Table" — Gold filled	bg:#B07D2F text:white px:24px py:10px radius:8px
Mobile menu	Ant Design Drawer from right	Width: 280px Links stacked vertically
Hamburger icon	24x24px icon	Show below 768px breakpoint
Padding left/right	48px desktop / 20px mobile	Container max-width: 1280px centered

HERO SECTION

PROPERTY	VALUE	NOTES
Height	100vh (min 600px)	Full viewport height
Background	High-quality food image	Unsplash: /photos/fine-dining-restaurant — overlay: rgba(0,0,0,0.55)
Headline	"Experience Fine Dining Like Never Before"	Cormorant Garamond Light 300 — 64px desktop / 40px mobile
Headline color	White #FFFFFF	Font-style: italic for "Fine Dining"
Subtext	1-2 lines describing the restaurant	DM Sans 400 18px Color: rgba(255,255,255,0.8) max-width: 480px
CTA Primary	"Reserve a Table"	bg:#B07D2F text:white px:32px py:14px radius:8px DM Sans SemiBold 14px
CTA Secondary	"View Menu"	border:2px solid white text:white same padding hover: bg-white/10
CTA gap	16px between buttons	flex row on desktop, stacked on mobile
Vertical alignment	Center or 40% from top	Avoid pure center — feels more dynamic
Padding	80px top 64px bottom	Accounts for sticky navbar height
Scroll indicator	Animated down-arrow icon	Positioned bottom-center, bouncing animation

Component Specs — About & Dishes

ABOUT SECTION

PROPERTY	VALUE
Layout	2-column grid: text left, image right (50/50 split)
Mobile layout	Single column — image stacks below text
Section padding	80px top and bottom
Section bg	#FAF7F2 (Cream)
Kicker label	"OUR STORY" — DM Mono 400 10px — color:#B07D2F — letter-spacing: 3px
Heading	Cormorant Garamond 300 — 40px — color:#1C1917
Body text	DM Sans 400 15px — color:#44403C — line-height: 1.7 — max 4 paragraphs
Image	Restaurant interior or food prep — 550x450px — rounded-2xl — shadow-lg
Image decoration	Small gold accent frame offset 16px behind image
Gap between cols	64px

SIGNATURE DISHES

Minimum 6 dishes required. Each dish card must display image, category badge, name, short description, and price. Data lives in /data/dishes.ts and uses the Dish TypeScript interface.

PROPERTY	VALUE
Grid	3 columns desktop / 2 tablet / 1 mobile — gap: 24px
Card background	White #FFFFFF
Card radius	16px (rounded-2xl)
Card shadow	shadow-md — box-shadow: 0 4px 16px rgba(0,0,0,0.08)
Card hover	translateY(-4px) + shadow-xl — transition: 300ms ease
Image size	100% width × 220px height — object-fit: cover — overflow hidden
Image hover	scale(1.05) — transition: 400ms ease — overflow hidden
Category badge	Absolute top-3 left-3 — DM Sans 500 11px — gold pill bg
Dish name	Cormorant Garamond 500 22px — color:#1C1917 — mt:12px
Description	DM Sans 400 13px — color:#78716C — line-height:1.6 — 2 lines max
Price	DM Mono 500 16px — color:#B07D2F — align right
Filter tabs	Ant Design Tabs — All / Starters / Mains / Desserts
Required dishes	Min 6: e.g. Saffron Risotto, Lamb Rack, Sea Bass, Chocolate Fondant...

SECTION 07

Component Specs — Reservation Form

The form uses Ant Design Form component with built-in validation. All fields are required unless marked optional. Show a success Modal on valid submission.

FIELD	COMPONENT	VALIDATION RULE	PLACEHOLDER
Full Name	Input	Required — min 2 chars	Your full name
Email Address	Input	Required — valid email format	your@email.com
Phone Number	Input	Required — min 8 digits	+1 (555) 000-0000
Reservation Date	DatePicker	Required — no past dates	Select date
Preferred Time	TimePicker	Required — 12:00–22:00 only	Select time
Number of Guests	InputNumber	Required — min 1, max 20	2
Special Requests	TextArea	Optional — max 300 chars	Allergies, celebrations...
Submit Button	Button type=primary	—	"Reserve My Table"

PROPERTY	VALUE
Section background	Dark image overlay (same technique as Hero)
Form card bg	White radius:16px padding:40px max-width:560px centered
Input height	44px (touch-friendly minimum)
Input border	1px solid #E5DDD0 hover: 1px solid #B07D2F
Input focus	border-color:#B07D2F box-shadow: 0 0 0 2px rgba(176,125,47,0.15)
Label style	DM Sans 500 13px color:#44403C margin-bottom:4px
Error text	DM Sans 400 12px color:#BE123C margin-top:4px
Grid	Name + Email on one row Phone + Date on one row Time + Guests on one row
Submit button	Full width height:48px bg:#B07D2F DM Sans 600 15px uppercase
Success modal	Ant Design Modal Title: "Reservation Confirmed!" Gold icon Close after 3s

SECTION 08

Testimonials & Gallery

TESTIMONIALS

PROPERTY	VALUE
Layout	Ant Design Carousel — 1 visible card at a time on mobile, 3 on desktop
Card width	360px desktop / 100% mobile
Card bg	White radius:16px padding:32px shadow-md
Reviewer avatar	48x48px rounded-full border:2px solid #D4A855
Reviewer name	DM Sans 600 15px color:#1C1917
Review role/date	DM Sans 400 12px color:#78716C
Star rating	Ant Design Rate component color:#B07D2F size:16px
Review text	DM Sans 400 14px color:#44403C line-height:1.7 italic quotes
Quote marks	Large decorative " character font-size:64px color:#FEF9EE absolute top
Section bg	#FAF7F2 (Cream)
Arrow controls	Custom gold arrow buttons 32x32px positioned outside card edges
Data source	/data/testimonials.ts using Testimonial interface

GALLERY

PROPERTY	VALUE
Layout	CSS Grid — 4 columns desktop / 2 tablet / 1 mobile
Grid gap	12px
Min images	8 images (mix portrait and landscape for variety)
Image source	Unsplash free images — restaurant interior, plating, ambiance
Image display	Ant Design Image.PreviewGroup — click to open fullscreen lightbox
Hover overlay	rgba(0,0,0,0.35) fade in + zoom icon + image scale(1.05)
Image radius	8px (rounded-lg)
Tall images	2 images span 2 rows using grid-row: span 2
Section title	"Our Ambiance" — Cormorant Garamond 300 40px
Section bg	White #FFFFFF
Next Image	Use next/image with fill layout and sizes prop for all gallery images

SECTION 09

Component Specs — Footer

PROPERTY	VALUE
Background	#1C1917 (Ink) — dark footer
Top border	3px solid #B07D2F — gold accent line
Layout	4-column grid desktop / 2 tablet / 1 stacked mobile
Column 1	Logo + tagline + short description (max 2 lines) + social icons
Column 2	Quick Links — nav links list (Home, About, Menu, Reservation, Contact)
Column 3	Contact Info — address, phone, email with icons
Column 4	Opening Hours — Mon–Fri, Sat–Sun, Public Holidays
Heading style	DM Sans 600 12px color:#D4A855 letter-spacing:2px UPPERCASE
Link style	DM Sans 400 13px color:#9C8870 hover: color:#D4A855 transition:200ms
Social icons	Instagram, Facebook, TripAdvisor — 20x20px color:#9C8870 hover:#B07D2F
Copyright bar	Separate row below border-top:1px solid rgba(255,255,255,0.08)
Copyright text	DM Sans 400 12px color:#6B5D4F centered "© 2025 Saffron Table. All rights reserved."
Padding	64px top 40px bottom (before copyright bar)

Icon & Asset Guidelines

Use a single consistent icon library throughout the project. Do not mix multiple icon sets.

ITEM	RECOMMENDATION	NOTES
Icon Library	Lucide Icons (lucide-react)	npm install lucide-react — clean, consistent, tree-shakeable
Icon Size	20px default / 24px hero / 16px inline	Always use width and height props in px
Icon Color	Inherit from text or explicit prop	Never hardcode icon colors — use currentColor
Navigation icons	Not needed in nav links	Use only for mobile menu hamburger icon
Footer icons	Instagram, Facebook, Globe	Use from lucide-react or simple SVGs
Form icons	User, Mail, Phone, Calendar, Clock	Use as prefix inside Ant Design Input prefix prop
Images	Unsplash free photos	Restaurant, food, interior — check license before using
Logo	Text logo or simple SVG mark	Create in SVG — do not use raster PNG for logo
Favicon	32x32px ICO or PNG	Place in /public directory — simple "S" or gold mark
OG Image	1200x630px	Add for social sharing — place in /public/og-image.jpg

Responsive Breakpoints

The site must look perfect at all breakpoints. Test each section on every device size before marking it complete.

BREAKPOINT	MIN WIDTH	TAILWIND PREFIX	TARGET DEVICES	KEY CHANGES
Mobile (base)	0px	(default)	iPhone SE, small Android	Single column, stacked layout, full-width buttons
Mobile L	390px	xs:	iPhone 14, Pixel 7	Slightly more padding, 2-col for small grids
Tablet	768px	md:	iPad, tablets	2-column grids, navbar shows — hide hamburger
Desktop	1024px	lg:	Laptops, small monitors	3-column grids, full spacing
Wide	1280px	xl:	Desktop monitors	Max container width, hero font increases
Ultrawide	1440px	2xl:	Large monitors	Constrain content, increase section padding

CONTAINER WIDTHS

BREAKPOINT	CONTAINER MAX-WIDTH	SIDE PADDING	TAILWIND
Mobile	100%	20px each side	px-5
Tablet	100%	32px each side	md:px-8
Desktop	1280px	48px each side	lg:max-w-[1280px] lg:px-12 mx-auto
Wide	1440px	48px each side	xl:max-w-[1440px]

SECTION 12

Tech Stack & File Structure

Follow this exact folder structure. All component files must use PascalCase. All utility files use camelCase. No inline styles anywhere in the codebase.

REQUIRED FOLDER STRUCTURE

```
saffron-table/
■■■ app/
■ ■■■ layout.tsx ← Root layout with fonts + AntdProvider
■ ■■■ page.tsx ← Main landing page (imports all sections)
■ ■■■ globals.css ← CSS variables + global resets
■■■ components/
■ ■■■ layout/
■ ■ ■■■ Navbar.tsx
■ ■ ■■■ Footer.tsx
■ ■■■ sections/
■ ■ ■■■ Hero.tsx
■ ■ ■■■ About.tsx
■ ■ ■■■ Dishes.tsx
■ ■ ■■■ Reservation.tsx
■ ■ ■■■ Testimonials.tsx
■ ■ ■■■ Gallery.tsx
■ ■■■ ui/
■ ■■■ DishCard.tsx
■ ■■■ TestimonialCard.tsx
■ ■■■ SectionHeader.tsx
■■■ data/
■ ■■■ dishes.ts
■ ■■■ testimonials.ts
■ ■■■ navigation.ts
■■■ types/
■ ■■■ index.ts ← All TypeScript interfaces
■■■ utils/
■ ■■■ helpers.ts
■■■ public/
■ ■■■ images/ ← Static images if not using Unsplash URLs
■■■ tailwind.config.ts
■■■ next.config.ts
■■■ README.md
```

TYPESCRIPT INTERFACES (place in /types/index.ts)

```typescript
interface Dish {
  id: number;
  name: string;
  description: string;
  price: string;
  image: string;
  category: "Starter" | "Main" | "Dessert";
}

interface Testimonial {
  id: number;
  name: string;
  role: string;
  rating: number;
```

```typescript
   review: string;
   avatar: string;
}

interface NavLink {
   label: string;
   href: string;
}

interface ReservationForm {
   name: string;
   email: string;
   phone: string;
   date: Dayjs;
   time: Dayjs;
   guests: number;
   requests?: string;
}
```

```typescript
   review: string;
   avatar: string;
}

interface NavLink {
```

```typescript
interface ReservationForm {
```

FINAL CHECKLIST BEFORE SUBMISSION

Quality Standards

■ All 6 sections implemented: Navbar, Hero, About, Dishes, Reservation, Testimonials, Gallery, Footer

■ All Ant Design components used: Form, DatePicker, TimePicker, InputNumber, Rate, Carousel, Image.PreviewGroup, Drawer

■ TypeScript — zero errors when running tsc --noEmit

■ No inline styles anywhere — Tailwind classes only

■ All structured data has TypeScript interfaces

■ Responsive — tested on Mobile (375px), Tablet (768px), Desktop (1280px)

■ All images use next/image component with proper sizing

■ Lighthouse Performance score ≥ 90

■ No console.log statements in production code

■ README.md written with setup and deployment instructions

■ GitHub repository has clean, meaningful commit messages

■ Deployed to Vercel and live URL tested

■ Screenshots taken for portfolio — desktop and mobile views

■ Color palette matches this spec exactly

■ Font families: Cormorant Garamond + DM Sans + DM Mono only

■ All spacing is a multiple of 8px

Good luck with the project. Build something you're proud of.

SAFFRON TABLE — DESIGN SPEC v1.0
